★ Profile Summary

Graduate of ENSIIE Paris-Évry-Courcouronnes, an engineering school specialized in computer science and mathematics. I am seeking a Unity Developer role. Through my studies and projects, I have developed with Unity across multiple platforms—mobile, virtual reality, Windows, and macOS—and on various game genres: RTS, FPS, TPS, idle, 2D platformer, and serious games. I'm also passionate about science and communication science.

A Languages

French Natif
English C1 (Certified)
Portuguese A2

🌍 International & Language Stays
