★ Profile Summary

Engineering graduate from ENSIIE Paris (Évry-Courcouronnes), C# developer with four years of hands-on practice across software and game development. Experienced in building and optimizing C# / .NET frameworks (Power Platform, Dynamics 365), object-oriented architecture, unit testing, and technical documentation. Strong command of Git, agile workflows, and full-lifecycle delivery from prototyping to production. Comfortable in cross-platform environments with a focus on performance optimization.

A Languages

French Native

English C1 (Certified)

Portuguese B1

Norwegian A1 (currently learning)

🌐 International

Brazil, Goiânia (1 year)
Language stay

Canada, Québec (Chicoutimi, 5 months)
Exchange semester at UQAC

Ireland, Dublin (2 weeks)
EC English Language Centres

Germany, Berlin (1 week)
High-school trip (Lycée Saint Joseph La Salle, Lorient)

Education

From September 2021 to May 2025

Engineering Degree in Computer Science & Mathematics

ENSIIE, Graduate School of Engineering - Paris / Évry

- JIN track: Video Games & Digital Interactions
- Program delivered in partnership (dual-institution track) between ENSIIE and Télécom SudParis
- Build video games in Unity / C# through academic projects and Game Jams

From September 2018 to June 2021

CPGE TSI (Technology & Industrial Sciences)

Lycée Saint Joseph Lasalle Lorient | Lycée Léonce Vieljeux La Rochelle

- Preparatory class for engineering schools, focused on engineering sciences: physics, electronics, automation, mechanics
- Develop scientific rigor and a structured way of working

Experience

From December 2025 to June 2026

Engineer - Lead Gameplay Developer

Freelance ELEVATE CORE LLC

- Build a mobile game in C# (Unity): software architecture, game systems and crypto wallet integration
- Optimize performance and keep code quality and maintainability in check

From August 2024 to February 2026

Engineer - Lead Gameplay Developer | Associate

Freelance Constellation Games

- Build the studio's first mobile application (an RTS in C# / Unity), from the ground up
- Design the software architecture and drive the project from design to release, in agile
- Co-found the studio as an associate: technical decisions, project management, coordination

From September 2024 to November 2024

Primary / Middle School Instructor

Fun Tech Adventures

- Introduce pupils to computing and video-game creation with Scratch

From March 2024 to August 2024

Software Engineer | C# / .NET Framework Development, Power Platform Consultant

End-of-Study Internship DIMSI

- Build and optimize XrmFramework, a C# / .NET framework for Dynamics 365 / Power Platform
- Write unit tests and technical documentation, ship new features
- Work on the BackROLL project: new projects, tests and features

From June 2023 to August 2023

Interactive VR Training Content Developer

2nd-year Internship Farsight VR Rennes

- Build C# (Unity) tools for VR training courses
- Optimize cross-platform delivery and performance for mobile headsets

From 2021 to 2023

Unity Developer - Game Jams

GameJam ENSIIE Évry

- Design game prototypes in C# / Unity during Game Jams: UniJam 2023, GameJam Étiolles 2022, Global Game Jam 2022, UniJam 2021

From June 2022 to July 2022

Unity VR Developer & Startup Creation

1st-year Internship C-19 Cluster (Games & Digital Interactions)

- Co-found Vulpecula VR, backed by the C-19 cluster

Personal Projects

Garypto: automated cryptocurrency trading bot

Personal project

- Scan Binance markets in real time and spot opportunities with a custom multi-factor momentum strategy
- Execute risk-managed trades from a live web dashboard

Skills & Interests

C# / .NET

C# (expert), .NET, OOP, Unit Testing, REST APIs / Web API, SOAP, Power Platform, Dynamics 365

Cloud & DevOps

Microsoft Windows Azure, Amazon Web Services, Google Cloud Platform, SaaS, Docker, CI/CD

Languages & Frameworks

C#, C++, C, Python, SQL, Java, JavaScript, TypeScript, PHP, HTML/CSS, OCaml, Bash, R ; Unity, Arduino, Blender, XrmFramework

Methodology

Git, Agile/Scrum, Full Lifecycle Development, IT Security, Quality Assurance, Technical Documentation

Platforms

Cross-platform, Mobile (Android, iOS), Microsoft Windows, macOS

Soft skills

Teamwork, stress management, perseverance, creativity, self-confidence

Interests

Science, technology, computer science, biology, history, mythologies ; Gym, hiking | Super Smash Bros Ultimate
