★ Profile Summary

Engineering graduate from ENSIIE Paris (Évry-Courcouronnes), C# developer with four years of experience in software and game development, including crypto wallet integration and the development of an automated trading bot (Garypto). Strong command of software architecture, APIs, Git, agile workflows, and full-lifecycle delivery from prototyping to production. Security-conscious, with a focus on performance optimization.

A Languages

- French** Native
- English** C1 (Certified)
- Portuguese** B1
- Norwegian** A1 (currently learning)

🌐 International

- Brazil, Goiânia (1 year)**
Language stay
- Canada, Québec (Chicoutimi, 5 months)**
Exchange semester at UQAC
- Ireland, Dublin (2 weeks)**
EC English Language Centres
- Germany, Berlin (1 week)**
High-school trip (Lycée Saint Joseph La Salle, Lorient)

Education

- From September 2021 to May 2025
Engineering Degree in Computer Science & Mathematics
ENSIIE, Graduate School of Engineering - Paris / Évry
 - JIN track: Video Games & Digital Interactions
 - Program delivered in partnership (dual-institution track) between ENSIIE and Télécom SudParis
 - Build video games in Unity / C# through academic projects and Game Jams
- From September 2018 to June 2021
CPGE TSI (Technology & Industrial Sciences)
Lycée Saint Joseph Lasalle Lorient | Lycée Léonce Vieljeux La Rochelle
 - Preparatory class for engineering schools, focused on engineering sciences: physics, electronics, automation, mechanics
 - Develop scientific rigor and a structured way of working

Experience

- From December 2025 to June 2026
Engineer - Lead Gameplay Developer
Freelance ELEVATE CORE LLC
 - Build a mobile game in C# (Unity) integrating a crypto wallet system
 - Design the software architecture and optimize performance
- From August 2024 to February 2026
Engineer - Lead Gameplay Developer | Associate
Freelance Constellation Games
 - Lead development of the studio's first mobile application (an RTS in C# / Unity)
 - Design the technical architecture and drive the project in agile
 - Co-found the studio as an associate: technical decisions, project management, coordination
- From September 2024 to November 2024
Primary / Middle School Instructor
Fun Tech Adventures
 - Introduce pupils to computing and video-game creation with Scratch
- From March 2024 to August 2024
Software Engineer | C# / .NET Framework Development, Power Platform Consultant
End-of-Study Internship DIMSI
 - Build and optimize a C# / .NET framework for Dynamics 365 / Power Platform (APIs, integrations)
 - Write unit tests and technical documentation
- From June 2023 to August 2023
Interactive VR Training Content Developer
2nd-year Internship Farsight VR Rennes
 - Build C# (Unity) tools for VR training courses
- From 2021 to 2023
Unity Developer - Game Jams
GameJam ENSIIE Évry
 - Design game prototypes in C# / Unity during Game Jams (UniJam, GameJam Étioles, Global Game Jam)
- From June 2022 to July 2022
Unity VR Developer & Startup Creation
1st-year Internship C-19 Cluster (Games & Digital Interactions)
 - Co-found Vulpecula VR, backed by the C-19 cluster

Personal Projects

- Garypto: automated cryptocurrency trading bot**
Personal project
 - Scan Binance markets in real time and spot opportunities with a custom multi-factor momentum strategy
 - Handle trade execution with built-in risk management
 - Design a live web dashboard to monitor and steer the strategy
 - Integrate crypto exchange APIs (Binance) and secure authentication

Skills & Interests

- Blockchain & Crypto**
Crypto wallet integration, Exchange APIs (Binance), Algorithmic trading, Real-time market analysis, Risk management
- C# / Software**
C# (expert), Software Architecture, REST APIs, OOP, Git
- Cloud & Security**
Docker, CI/CD, Amazon Web Services, Google Cloud Platform, Microsoft Windows Azure, IT Security
- Languages & Frameworks**
C#, Python, SQL, C++, C, JavaScript, TypeScript, Java, PHP, HTML/CSS, OCaml, Bash, R ; Unity, Arduino, Blender
- Methodology**
Agile/Scrum, Full Lifecycle Development, Technical Documentation
- Soft skills**
Teamwork, stress management, perseverance, creativity, self-confidence
- Interests**
Science, technology, computer science, biology, history, mythologies ; Gym, hiking | Super Smash Bros Ultimate
